Section G. Questions and Answers

INTRODUCTION

This manual is designed to instruct: 1) vendors what to program in their systems in order to report certain caseload statistics; and 2) manual courts what, when, and how to count and report certain caseload statistics.

The information collected for caseload will provide the court with general statistical information and basic data for making management decisions. More specifically, the information can be used for:

- policy, planning, control, and evaluation of individual caseloads with regard to assignment, scheduling, and other caseload management events and for identifying trends.
- the basis for resource allocation and budget requests including providing projections for statewide funding and assisting in resolving funding disputes.
- making recommendations for additional judgeships.
- comparing caseload and activities, providing feedback to trial courts, and providing information to the National Center for State Courts for national analysis.
- responding to inquiries from legislative/county government, judicial, and other interest groups and providing general information to the public regarding court activities.
- compiling the Annual Report of the State Court Administrative Office.

It is imperative that the information collected and reported be accurate and timely.

QUESTIONS

Questions about caseload should be directed to: the State Court Administrative Office, Trial Court Services at PO Box 30048, Lansing, Michigan 48909 - (517) 373-7496. The Caseload Reporting System (CRS) also has several mechanisms for getting answers to your questions: 1) a question and answer section; and 2) a feedback form for asking questions electronically. Questions posed through the feedback form on the CRS will be answered as quickly as possible, but it may take several days before you receive a response. If you need immediate assistance, contact the office by phone.

AUTHORITY FOR REPORTS

The Court Administrator, under the direction of the Supreme Court, shall collect and compile statistical and other data, make reports of the business transacted by the courts, and transmit the reports to the Supreme Court so that the statistics and other data may be used in taking proper action in the administration of justice. [MCR 8.103(5)]

The Court Administrator, under the supervision of the Supreme Court, shall obtain reports from courts, and the judges, clerks, and other officers of the courts, in accordance with rules adopted by the Supreme Court on cases and other judicial business conducted or pending in the courts, and report on them to the Supreme Court. [MCR 8.103(7)]

The clerk of every court shall submit reports as required by the State Court Administrative Office. [MCR 8.119(G)(2)]

Every trial judge shall, on the first business day of January, May, and September of each year, file with the State Court Administrator a certified statement in the form prescribed by the State Court Administrator, containing full information on any matter submitted to the judge for a decision more than 4 months earlier which remains undecided. [Statement of Matters Undecided, MCR 8.107 (SCAO 27 and SCAO 27a)]

The chief judge of the court in which criminal proceedings are pending shall file with the State Court Administrator a monthly report setting forth the reasons for delay in the proceedings. [Speedy Trial, MCR 6.004, MCR 8.110(C)(5) (SCAO 13 and SCAO 14)]

The State Court Administrative Office shall publish an annual report evaluating the court regarding its duty under this act to engage in obtaining permanency for children. The report shall include at least information and statistics detailing the court's adherence to each time period prescribed by this act or court rule for the management and disposition of children's cases that are petitioned under MCL 712A.2(b) and, if the court fails to adhere to a time period, the specific reasons for that failure. [Circuit Court Caseload, MCL 712A.22 (SCAO 31)]

All trial courts of this state are directed to report to the State Court Administrative Office caseload management statistics and other caseload management data required by that office. [Mich Sup Ct AO 1991-4, B.]

GENERATING REPORTS

Reports must either be typed online in the report format supplied at the Supreme Court's website or transmitted via the Internet in the file format provided by the State Court Administrative Office.

FILING INSTRUCTIONS

Every trial court must report their caseload statistics to the State Court Administrative Office on a quarterly basis. Reporting of Parts 1 and 2 will begin January 1, 2002 and must be completed for each court location by funding unit and election division. In addition, the Family Division of the Circuit Court must continue to complete SCAO 40b, the activity report of delinquency and child protective proceedings.

Before transmitting caseload statistics to the State Court Administrative Office, a printed copy of the report should be provided to each chief judge of the court to verify the accuracy of the statistics.

Quarterly caseload statistics must be transmitted no later than 30 days following the end of the report period.

CASE TYPE CODES - CASE INFORMATION CONTROL SYSTEM

The case type codes required by the Michigan Trial Court Case File Management Standards must be used for reporting cases. The case information control system is intended to classify the principal subject matter of cases (not the specific nature of proceedings).

Each case type is reported separately in Parts 1 and 2. In a criminal or juvenile delinquency case, the most serious offense defines the case type code to be assigned.

Requests to amend the case type codes must be submitted to the State Court Administrative Office, Trial Court Services Division.

DATA ELEMENTS AND MICHIGAN SUPREME COURT - COURT DATA STANDARDS

In programming systems for collecting, compiling, and reporting the statistics required by these reports, courts must use the data elements specified in the collection format and must comply with any applicable Court Data Standards of the Michigan Supreme Court.

CONVERSION

At a minimum, new case type codes **must** be used for both new case filings and pending cases starting January 1, 2002. However, for the integrity of each court's case management system and to avoid the necessity of operating dual programs, it is recommended that all cases be converted to the new codes to accommodate continuing activity on cases that have already been reported disposed. Except as indicated in the instructions, all pre-existing codes must be converted to the new case type codes before compiling the first caseload report for the quarter of January-March 2002. Additionally, courts should either: 1) convert all closed cases; or 2) have provisions in software for requiring the recoding of closed cases in the event they are reopened.

Before generating the first quarterly report for January 1, 2002 through March 31, 2002, you must remove from the beginning pending figures of January 1, 2002 all pending cases which would have otherwise been disposed before December 31, 2001 had these new instructions for method of disposition been in place. *For example, before January 1, 2002, a criminal case in the circuit court, where there was a bench trial, would be reported disposed under non-jury verdict at the time the judgment is entered. However, under the reporting instructions after January 1, 2002, a criminal case in the circuit court, where there was a bench trial, would be reported disposed at the time the bench verdict is entered. In this example, it is January 1, 2002, the criminal case has already had a verdict entered, but the sentencing hearing has not been held, so judgment has not been entered. It would be considered a "pending" case under the old system, but under the new system, it would be counted disposed.*

OVERVIEW OF REPORT SECTIONS

Four parts to the report were developed; however, only the first two are being implemented on January 1, 2002. Parts 3 and 4 are described below, but are pending implementation and the actual formats are not included. Where appropriate, the sections correspond with one another throughout each of the four parts of the report. Instructions for compiling and reporting statistics are included.

Part 1: Caseload and Other Activity (implement January 1, 2002)

Part 1 is a summary of the caseload for each court location and is used to report, by case-type, the number of beginning pending cases/petitions as of January 1 of each year, new filings in each quarter and reopened cases/petitions in each quarter.

Part 2: Method of Disposition (implement January 1, 2002)

Part 2 is a summary of the caseload disposition methods for each court location and is used to report, by case type, the method by which complaints, petitions, and other pleadings are disposed in each quarter.

Each disposition should be entered in the column representing the highest form of final disposition within the case using the hierarchy as defined in each section.

Part 3: Judicial Events (implementation date not determined yet)

Part 3 will be used by each judge, referee, and magistrate to report the number of significant events associated with their assigned caseloads. It will include both pre- and post-judgment events. These figures will not total the pending figures from Part 1.

Part 4: Time Guidelines and Case Age (implementation date not determined yet)

Part 4 will be used by each judge, referee, and magistrate to report, of their assigned caseload, the case age at disposition and pending case age. This report will be completed annually and submitted with Parts 1 through 3 of the last quarter of every reporting year.

Until Part 4 is implemented, courts are still required to prepare case-age and time guidelines reports in accordance with Michigan Supreme Court Administrative Order 1991-4.

The Family Division of the Circuit Court must **continue to report** the activity required by the Monthly Activity Report for Juvenile Division of Michigan Probate Court, SCAO 40b (2/94). However, after December 31, 2001 the report form SCAO 40b will be referred to as the **Quarterly Activity Report for Family Division of Circuit Court - Juvenile**. Also, starting January 1, 2002, SCAO 40b is to be submitted quarterly instead of monthly.

GENERAL DEFINITIONS

- **Adjudication:** Adjudication is the point at which the court enters a finding on an original petition, complaint, citation, or other pleading. Adjudication means a "method of disposition". Reporting of adjudication is triggered by the event which will ultimately result in a dispositive judgment or order. In either situation, **disposition does not mean a case is closed**.
- **Case:** A case is an action opened by the court because it has received an original petition, complaint, citation, or other pleading. In juvenile and child protective proceedings, a case often means a specific child rather than an action opened because of a petition. **For purposes of caseload reporting, a juvenile and child protective case means an action opened because of an original petition.**
- **Closed Case:** Closing of a case varies. It is generally the point at which it is likely that no further action will be taken on a case. There are many situations where a closed case can be reopened because someone motions the court.

Some examples of case closure are: 1) the end of an appeal period in a civil case; 2) after someone is discharged from probation or pays in full a financial obligation to the court in a criminal or traffic case; 3) when a child is no longer under the jurisdiction of the court; 4) when an order of adoption is finalized; or 5) when the last child in a divorce reaches the age of 18 or up to 19 1/2 years of age if still in high school. For purposes of caseload reporting, **closing of cases is not reported.**

- **Disposition:** For purposes of caseload reporting, disposition means adjudication.
- **File:** A file is the repository for collecting the pleadings and other documents and materials related to a specific case. A file also refers to a child who is in the court system as a result of a child protective or juvenile proceeding. Some courts include more than one child in a single file. Child protective or juvenile files often include more than one case (petition).
- **Original Petition:** The first petition in a juvenile, child protective, or adoption proceeding which is assigned a new petition (case) number and an authorized case type code.
- **Pending Case/Petition:** A pending case/petition is one in which there has been no finding of adjudication on the pleading (petition, complaint, citation, or other document which initiated the action with the court). Does not include inactive cases.
- **Reopened Case:** For purposes of caseload reporting, a case/petition is considered reopened when it comes back to the court for another disposition after having been reported disposed statistically. A case may be reopened and disposed more than once.

When the family division of the circuit court is processing cases under which it has ancillary jurisdiction, the statistics must be provided in Section I of this report.
- When a case type code is changed after a case has been reported, the case must be counted disposed as "Case Type Change" under the case type code under which the case was originally reported (as a new filing) and reported as a new filing under the new case type. Separate instructions for this new filing are not provided again in the following pages.

FILE FORMAT
for Electronically Uploading Caseload Data

File Formats for the Submission of Electronic Caseload Data

Caseload Reporting System

1 Introduction

This document describes the record layout for submitting data electronically to the Caseload Reporting System (CRS). Data so submitted will be imported into an Oracle database, and that data will then be used for generating reports. Courts with a caseload management system may be able to create the data file with relative ease, but the data file must conform to the following record layout in order for the CRS to understand the data and store it properly.

1.1 *Submission Mechanism*

The CRS project has determined requirements for the technique to be used by the courts to submit electronic data files. The following describes the technique to be employed.

The CRS includes web-based functionality to submit the data file online, meaning a court must be connected to the public Internet or the Supreme Court intranet. The user attempting to submit the data file will sign on to an application using a web browser. The user will enter a drive, path, and filename to select the file to be submitted, and the application will transfer the file to a JIS-based server. The submission will be recorded in a database, and the file will be processed. The user will then be able to view the submitted data using web-based data entry screens.

2 Electronic Data File Format

2.1 *General Format*

All data submitted electronically shall be in ASCII format, enclosed in quotes, and comma delimited; i.e., "xxxxxx", "xxxxxx", and so on. An empty field (") is considered null. Each record in the file will represent a single data value. A record is a series of ASCII characters terminated with a carriage return-linefeed character. The elements of each record will identify which data value it represents, so that the type of data (Circuit court) and the quarter, year, county, court code, as well as the part, section, action, and case type combine to refer to a single field on a particular caseload report form. This record layout will require data to be written out redundantly, but allows each record to be dealt with independent of any other record in the file.

2.2 *Record Format:*

The format shall be as follows:

"TYPE","QTR","YEAR","COURT","COUNTY","PART","SECTION","ACTION","CASETYPE","VALUE"

2.2.1 Field Definitions

"TYPE"	= Data Type: "C" (circuit)
"QTR"	= Report Quarter "1", "2", "3", or "4"
"YEAR"	= Report Year "2002", "2003", etc.
"COURT"	= Court Number as defined below
"COUNTY"	= County Name that, along with the court number, identifies a specific court jurisdiction
"PART"	= "1" or "2"
"SECTION"	= "A", "B", "C", etc.
"ACTION"	= A 2 to 4 digit code as defined below
"CASETYPE"	= A 2 digit code as defined below
"VALUE"	= Null value ("") or whole number value of 0 or greater

Example: "C","1","2002","C10","Saginaw","1","A","BP","AA","0"

The above example is for district data ("C"), first quarter ("1"), year 2002, 10th Circuit Court ("C10"), the county of Saginaw, Part 1, Section A, action Beginning Pending ("BP"), case type AA, with a value of zero.

This provides flexibility when submitting the data so that there are no expectations about groups of records; each one is considered independently. It is possible, though improbable, that probate, circuit, and district data can be intermixed, record by record, and that the values can be listed in no particular order regarding their section, part, action, or case type. It is likely that the reports used to create a data file will create the records in sequence; for example all the part 1 data listed from section A through the last section, and all the actions and case types grouped together. This approach duplicates what might be considered header information on every detail line. We are increasing the size of the file in order to purchase flexibility for the courts that choose to create these electronic data files.

2.2.2 Field Names, Attributes, and Length:

<u>Field Name</u>	<u>Attributes</u>	<u>Max Length</u>
TYPE	Alphabetic	1
QTR	Numeric	1
YEAR	Numeric	4
COURT	Alphabetic, Numeric, -	5
COUNTY	Alphabetic	25
PART	Numeric	1
SECTION	Alphabetic	1
ACTION	Alphabetic	4
CASETYPE	Alphabetic	2
VALUE	Numeric	6

2.2.3 Submission of Files

The electronic files may be submitted repeatedly in order to correct or complete the data. That is, if a particular field is missing, or has a null value (""), the submission will be accepted, and the data available will be processed.

Subsequent submissions will overwrite the existing values in the database. However, if a field in the submitted file has a null value ("") it will be ignored, and the existing value in the database, if any, will remain. Similarly, missing values in subsequent submissions will not affect existing values in the database. Any non-null values (zero or greater) will be used to overwrite existing data for that court, in that year, and the particular quarter.

2.2.4 Court Codes and Counties

The following table lists the court codes and their corresponding counties; jurisdictions are included to further define each court. The court code and county together create a unique identifier for each jurisdiction. Data must be submitted as an aggregate for the jurisdiction, as listed below. Data will be reported for each of the jurisdictions, as well as totals for the entire court; i.e. "C19", which combines all of the submitted data from the two counties.

2.2.4.1 List of Unique Court Code and Location Name Combinations

1 Introduction

1.1 Purpose

This guide is intended to document for end users the screen functionality of the Caseload Reporting System (CRS). This document, created during the Software Design phase of the project, captures the intent of each screen, the navigation mechanisms on the screens, what each data field represents, and how each field on the screen is to be used.

2 Software Application Screens

2.1 Login Screen

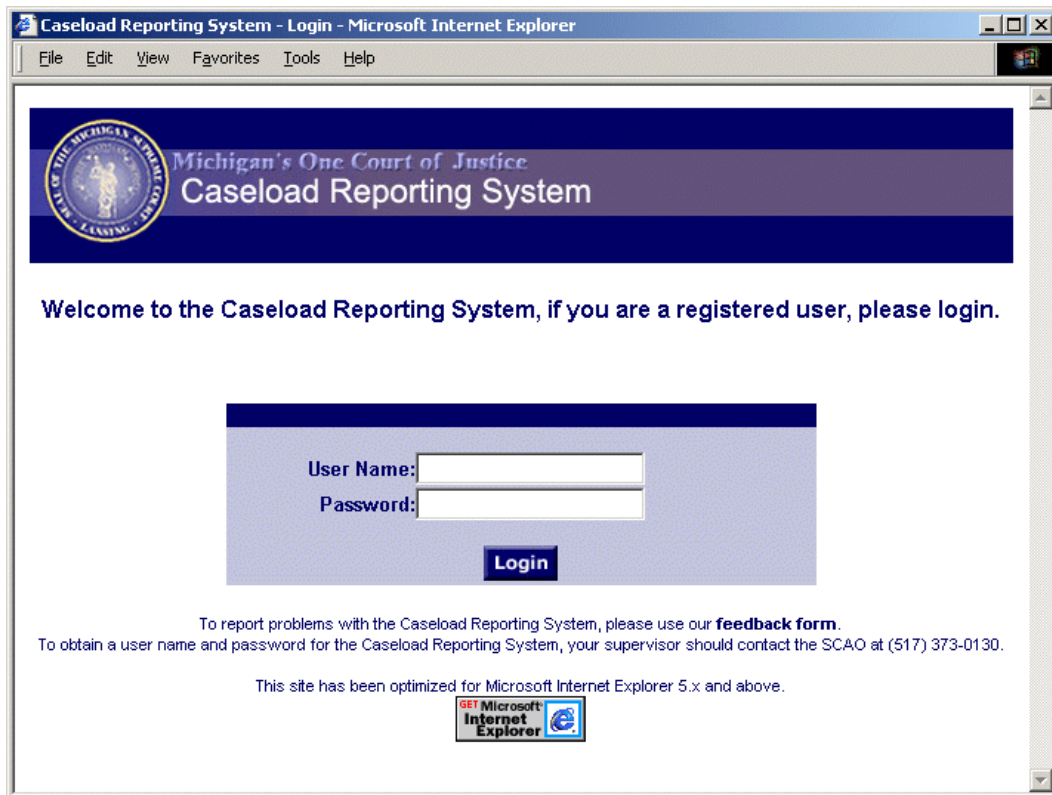

The screenshot shows a web browser window titled "Caseload Reporting System - Login - Microsoft Internet Explorer". The browser's menu bar includes "File", "Edit", "View", "Favorites", "Tools", and "Help". The main content area features a blue header with the Michigan State Seal on the left and the text "Michigan's One Court of Justice" and "Caseload Reporting System" on the right. Below the header, a message reads: "Welcome to the Caseload Reporting System, if you are a registered user, please login." In the center, there is a light blue rectangular box containing a "User Name:" label next to a text input field, a "Password:" label next to another text input field, and a blue "Login" button below them. At the bottom of the page, there is a line of text: "To report problems with the Caseload Reporting System, please use our **feedback form**." followed by "To obtain a user name and password for the Caseload Reporting System, your supervisor should contact the SCAO at (517) 373-0130." and "This site has been optimized for Microsoft Internet Explorer 5.x and above." A small "GET Microsoft Internet Explorer" logo is positioned at the very bottom center.

Figure 1: Login Screen

2.1.1 Purpose

This screen allows a user to enter their user name and password to gain access to the system.

2.1.2 Usage

The focus begins in the User Name field where the user must enter their assigned user name. They can then tab to or click on the Password field and enter their password and

hit the Enter key or click the Login button. If the user name and password are correct, the user is redirected to the Menu screen. If the user name or password is incorrect, an error message is displayed and the focus returns to the User Name field where the user may try again.

2.1.3 Screen Element Descriptions and Usage

Name	Description	Usage
User Name	The user's user name, which is required to gain access to the system. It uniquely identifies the person.	The user name must contain a minimum of three and a maximum of 25 alphabetic characters. This field cannot be left blank. When this field receives focus, any existing text is selected.

QUESTIONS AND ANSWERS

CIRCUIT COURT CASELOAD QUESTION AND ANSWER

General Questions

► Ancillary Proceedings

Q What are “ancillary proceedings” and how do they apply to family division and/or probate matters?

A When the family division of the circuit court was established by law in 1998, the new law identified a group of probate cases that are to be handled in the family division when it is part of or subordinate to another family division proceeding. Those cases include guardianships, conservatorships, admissions and mental commitments.

► Assignments

Q Do I count cases to which to my judge is assigned when the case originated in another court?

A No. Assignment of a case filed in another court is not a new case in the court where the judge was elected to sit, and should not be entered into the case management software if it will result in being counted as a new case.

► Caseload Reporting System

Q If a court uploads its caseload data electronically via diskette or electronic transfer, and later wants to correct some of the data, how is the correction accomplished?

A The court can either go to the CRS website and manually correct the appropriate data and save it, or regenerate the quarter’s report and again upload the entire data for that quarter.

Q Does a court have to wait for all sections of the report (e.g., juvenile, child protective, adoption, etc.) to be completed to send the caseload report to SCAO?

A The information can be transmitted at different times, but should be verified for accuracy prior to submission.

CIRCUIT COURT CASELOAD QUESTION AND ANSWER

Q Who can my local information systems people consult at SCAO regarding CRS?

A They will be referred to the appropriate staff depending on the question. Either submit an e-mail through the CRS website or call SCAO at (517) 373-0130. E-mail is preferred for purposes of documentation.

Q Will the SCAO 40b Quarterly Activity Report be submitted by paper to the Regional Office?

A No. You must transmit this report electronically. The format will be accessible on the main menu of the CRS. NOTE: At some training sessions it was indicated this would be the only document to be reported by paper, however, this has changed since the training began.

► **Case Type Codes**

Q What case type code should be used for Department of Natural Resources condemnation cases under MCL 324.1604?

A CZ.

► **Misdemeanor Traffic: Juvenile**

Q Who reports misdemeanor traffic and delinquency cases involving juveniles where the district court handles these matters pursuant to a local administrative order (LAO)?

A The circuit court. Under the LAO the district judge is assigned as a circuit judge; therefore, they would be counted in Section E of the circuit court caseload report.

► **Reporting from Multiple Courts/Locations**

Q My court is a multi-county circuit. Are the statistics from all counties supposed to be reported together?

A No. Each court location in a multi-county circuit reports its statistics separately.

CIRCUIT COURT CASELOAD QUESTION AND ANSWER

Q My court has multiple locations. Are the statistics from all locations supposed to be reported together?

A Yes

New Criminal Cases

► Multiple Petitions, Complaints and Warrants

Q What does the court do when multiple petitions, complaints and warrants are filed from the same incident - one for statute offenses and the other for ordinance offenses?

A The best practice is to consolidate these in one case file, using the case type code for the most serious charge. If the case goes to trial the two prosecuting officials will need to work out who will prosecute the case. There may be an issue with your software to properly distribute fines and costs.

Q What does the court do when multiple criminal cases from one incident filed by prosecutors are bound over to the circuit court? Will this affect the way we count cases?

A If possible, the complaints should be consolidated into one case, as it will cause uneven reporting from court to court. See Circuit Court Part 1, Section B. The Prosecuting Attorneys Association of Michigan has indicated it is their policy to combine the cases; if prosecutors are not doing so, that office is to be advised by the court of that fact.

► Post Judgment Transfers

Q If a case is transferred to our court for purposes of probation oversight, is this a new case for purposes of the caseload report?

A No. Once a criminal case is adjudicated and reported disposed probation activity is not reported. Transfer of a case for supervision is not a new case in the receiving court and should not be entered into the case management software if that will result in being counted as a new case.

CIRCUIT COURT CASELOAD QUESTION AND ANSWER

New Civil Cases

► Adoption

Q Why was form PCA 350, “Motion and Order for Delayed Registration of Foreign Birth” listed as a form for opening an adoption case?

A This was an error that has been corrected.

► Attorney Admission to Bar

Q Is a new case opened when a new attorney is admitted to the bar?

A No, according to the Case File Management Standards, it is considered a group file. You do not count it as a case.

► Civil Infractions

Q If the family division and a district or municipal court in the county have an agreement pursuant to MCL 712A.2 that jurisdiction over civil infractions are waived to the district court, who reports these on the caseload report?

A The district or municipal court receiving the civil infraction violations report these cases on the caseload report.

► Foreign Judgments

Q Is a foreign judgment considered a new filing, and how are foreign judgments counted disposed?

A The filing of a foreign judgement is considered a new filing as a civil case. When a foreign order is registered it is considered a new filing in a domestic relations case. Each should be immediately disposed under “Other Disposition.”

CIRCUIT COURT CASELOAD QUESTION AND ANSWER

► Personal Protection Order Violations Issued by Another County

Q What do I do when I receive a complaint or motion regarding a violation of a personal protection order issued by a court in another county?

A When a respondent is arrested in a county other than the county that issued the personal protection order, the case would be opened in Section H with a VP case type code and disposed with the appropriate disposition.

Reopened Cases

Q When a case is reopened, it may appear on my list of pending cases over two years old. Is this appropriate?

A This report will no longer be collected for circuit courts. It may appear on your time guideline reports from your case management system.

Q How will the court determine when an evaluation is returned to the court after referral to the Department of Community Health for evaluation to determine competency to stand trial when the envelope is marked confidential?

A It is the responsibility of the person with the authority to review the confidential information to provide that information so the clerk can record the receipt of the evaluation.

Q If the court receives a notice of discharge of bankruptcy how is this reported on the caseload report?

A The preferred action is to do nothing - do not reopen the case. The less preferred method is to reopen the case. The court then has two options regarding disposition. The preferred option is to immediately close under "Other Disposition." The less preferred option is to let the case go to no progress with an eventual dismissal.

CIRCUIT COURT CASELOAD QUESTION AND ANSWER

Disposition Generally

► Interlocutory Appeals

Q How are interlocutory appeals reported?

A They are not disposed. These cases remain pending until the issue is resolved and the case is disposed in the trial court.

► Partial Disposition of Multi-Count or Multi-Party Complaints

Q If a multi-count criminal complaint or a multi-party civil complaint is partially disposed in one reporting period with the balance of the counts or parties disposed in another reporting period, which count or party disposition is counted on the caseload report?

A A case is not counted as disposed until all criminal counts or all civil case parties have a disposition. At that point the case management system should report disposition of the entire case under the highest priority disposition found within that case. The case must be reported disposed during the quarter when the last party or criminal count is disposed.

► Transfers

Q At what point is a remand or transfer considered a “Transfer” disposition?

A At the time the order to transfer or remand is entered.

Disposition: Criminal

► Deferred Sentencing

Q How are cases disposed when sentencing is deferred under MCL 333.7411 (Controlled Substance Act), MCL 769.4a (Spouse Abuse Act), MCL 750.350a (Parental Kidnapping Act), and MCL 762.11 (Holmes Youthful Trainee Act)?

CIRCUIT COURT CASELOAD QUESTION AND ANSWER

A These cases are reported based upon the method of determining guilt; jury verdict, bench verdict, or plea. They are not reported under “local diversion,” and they are not reopened for dismissal or if the plea of guilt is to be entered for failure to comply with court orders.

► **Dismissal**

Q If a prosecutor motions the court, in writing or on the record, to nolle prosequi the case, the case is then dismissed. Is this disposition counted as a “Dismissal” or a “Nolle Prosequi?”

A The case should be reported under disposition “Nolle Prosequi.”

► **Felony Plea Accepted by District Court**

Q When the district court accepts a felony plea for the circuit court, when should the plea be reported as a disposition?

A The plea must be reported as a circuit court disposition after bindover from the district court. The district court disposition is “Bindover/Transfer”, and the circuit court disposition is “Guilty Plea”.

► **Incompetency**

Q If a person is found not competent to stand trial how is the case reported disposed?

A If the prosecutor has not filed a nolle prosequi the court may dispose of this under “Inactive.”

► **Local Diversion**

Q How will I know when a case has been referred for diversion?

A At a minimum, it would be reflected in the Register of Actions.

CIRCUIT COURT CASELOAD QUESTION AND ANSWER

► Plea Bargain

Q How would a matter involving multiple charges resulting in a plea bargain to one or more counts and a nolle prosequi for one or more counts be reported as disposed?

A The guilty plea should be reported as it is the highest form of disposition in the hierarchy of dispositions.

► Plea Taken in Circuit Court

Q How is a case handled if the circuit court takes a plea on a misdemeanor and returns the case to district court for sentencing?

A This is improper. The district court cannot report the “Plea” disposition it did not conduct. Either the case should be returned for a plea and sentencing in district court or the circuit court should sentence the defendant.

► Prosecutor Dismissal

Q What if the prosecutor fails to send the nolle prosequi order after a period of time, having indicated he/she would file the document?

A The court should wait for the order before disposing of the case. However, if general practice is that the document is never filed, the court may dispose of the case based upon the Register of Action entry.

Disposition: Civil

► Case Evaluation

Q In a case where case evaluation is used, would it be reported as disposed when the case evaluation is accepted or when the judgment is received by the court?

A When the case evaluation is accepted.

CIRCUIT COURT CASELOAD QUESTION AND ANSWER

► Lack of Progress

Q Will my information system track no-answer and no-progress with the changes in the way cases are disposed?

A You will have to find out from your software provider.

► Military Service

Q Are cases disposed as “Inactive” because a party is on active military service?

A If the court on its own motion, a party, or a person acting on behalf of a party motions the court to stay the proceedings because the ability of plaintiff to prosecute or defendant to conduct his defense is *materially* affected by reason of his military service, the court may enter an order staying the case. The case is then disposed as “Inactive.”

“50 USCS Appx Section 520(4) was not intended to prevent judgment by default against person in military service where defendant was *fully informed* of pendency of action and had *adequate time and opportunity to appear and defend* or otherwise protect his right.” Burgess v Burgess (1962 Super) 234 NYS2d 87.

Disposition: Domestic Relations

► Pro Confesso Divorce

Q What is the appropriate disposition in a divorce matter when a default is entered against the defendant and the divorce is granted at the pro confesso hearing?

A The appropriate disposition is the **method** by which the case is disposed, which is “Default”. The granting of the divorce is simply the final outcome of that disposition. If a default is set aside and the parties ultimately settle, the method of disposition is “Settled”. Both of these methods of disposition are reported on line 2. (See Sec. D, Line 2, “Uncontested/Default/Settled:”)

CIRCUIT COURT CASELOAD QUESTION AND ANSWER

Disposition: Juvenile

► Designated Cases

Q Can DJ cases be transferred before adjudication?

A The law does not provide for a transfer prior to adjudication in DJ cases. During CRS training, transfer was indicated as a method of disposition in the caseload reporting instructions. After reviewing the court rule, that method of disposition was removed.

Q When the prosecutor originally designates a case and it is opened under DJ, then the prosecutor retracts the designation, would it be counted as a case type change?

A Under the DJ code, the method of disposition would be a case type code change and the case would then be opened under DL.

Juveniles/Children in Court System

► Child Protective Proceedings

Q In counting the total number of children who have had prior court jurisdiction under child protective proceedings, would I count prior jurisdiction only if it was in the court where the action is currently being filed?

A No. The total number reported is for prior jurisdiction in **any** court if you have knowledge of the prior jurisdiction. FIA has a Central Registry which alerts them to prior jurisdiction and they would likely advise the court of the prior jurisdiction.

► Juvenile Proceedings

Q Do you count juveniles who are placed on the consent calendar in the section requesting the number of juveniles in the system?

CIRCUIT COURT CASELOAD QUESTION AND ANSWER

- A Yes. Although they are not actually wards of the court, they are under court supervision.
- Q In the section for reporting the number of juveniles in the system, how would I count a juvenile who has been under the supervision of FIA and the court in the same quarter? Would I count him/her in both places?**
- A No. Only the most current status is reported.
- Q If there is a pending adjudication on a juvenile who is currently under FIA or court supervision, would he/she be counted in the section for reporting the number of juveniles in the system?**
- A No. Count only the number of juveniles who are **not** currently under FIA or court supervision.
- Q If a juvenile is incarcerated in jail or prison as the result of a DJ case and a DL petition is pending on that same juvenile, would the DL case be reported as a “Pending Adjudication” in the section for reporting the number of juvenile in the system?**
- A Yes. This would be counted as a pending adjudication, because he/she is not under FIA or court supervision when incarcerated under a DJ case.
- Q If a case involving a juvenile is waived to circuit court (FJ case type) and subsequently results in a disposition under the juvenile code, would the juvenile be counted in the section for reporting the number of juveniles in the system?**
- A Yes, either as FIA or court supervised as appropriate.
- Q If a juvenile is sentenced as an adult in a DJ case and the prison sentence is deferred, resulting in juvenile probation, is he/she counted in the section for reporting the number of juveniles in the system?**
- A Yes.
